SECTION I

Introduction

Operation IMPACT in New York State

The goal of Operation IMPACT is the reduction of crime, particularly violent and firearm-related crime in the seventeen (17) counties in New York State that account for 80% of total crime outside of New York City. This program, which was implemented in 2004, provides funding, resources, and technical assistance, and fosters enhanced partnerships amongst participating agencies. Successful crime reduction strategies include a data driven process of timely, accurate crime reporting; crime analysis; criminal intelligence development; rapid deployment of personnel; formulation and evaluation of strategic operations; and community out-reach.

The police jurisdiction which reports the highest volume of violent crime within the county is designated as the primary IMPACT site. Participating counties must develop active partnerships among Federal, State and local law enforcement and criminal justice agencies. The county District Attorney and Chief of Police in the primary jurisdiction lead the IMPACT partnership and coordinate the IMPACT strategy. During 2007, 96 local agencies received Operation IMPACT funding. Participants include:

- Division of Criminal Justice Services (DCJS)
- New York State Police (NYSP)
- Division of Parole (DOP)
- Division of Probation and Correctional Alternatives (DPCA)
- State Liquor Authority (SLA)
- Federal Bureau Law Enforcement Agencies
- County Probation Departments and Sheriffs' Offices
- District Attorneys' Offices
- Local Police Agencies within IMPACT Counties

In 2007, the IMPACT program was supported by \$17 million in funding. Grants were awarded on a competitive basis and required all participating jurisdictions to focus on violent crime, with ten sites required to emphasize a reduction in gun crimes. Jurisdictions were also required to enhance their crime analysis capability, further develop their use of criminal intelligence, and include a community initiative.

Using this crime reduction model successfully depends on the ability of law enforcement executives to make informed decisions. The jurisdiction's crime analysis capability serves as the

2006 IMPACT County Crime Statistics
Total Index Crime

Operation IMPACT in New York State

foundation for making informed decisions regarding tactics, deployment and resource allocation. Recognition of emerging trends or recently identified crime patterns can result in movement of personnel or repositioning of electronic surveillance equipment. These are just two examples of how tactical and strategic decisions can be made based on local crime data analysis. Informed decision making is further strengthened by the proactive collection of criminal intelligence. This proactive collection is best accomplished through assigned dedicated Field Intelligence Officers. In 2007, IMPACT funding supported 29 crime analyst and 39 Field Intelligence Officer positions.

Key Public Service Areas

- Support active local partnerships to reduce crime
- Improve the data available to help reduce crime
- Enhance crime analysis and intelligence development and expand information sharing among partner agencies
- Participate in crime fighting operations, particularly those which address gun crime and other violent crime

Critical Objectives

- Develop and implement effective strategies to reduce crime
- Enhance crime analysis and proactive intelligence collection capabilities
- Compile and submit all crime reports within 30 days of the end of the month
- Participate fully in SAFETNet
- Report all recovered crime guns to the State Police and ATF, and process all crime guns at the local forensic laboratory

Operation IMPACT in New York State

Timely, accurate crime data are essential for criminal justice decision making. All primary IMPACT sites are required to submit a monthly summary of reported crime to DCJS within 30 days of the end of the reporting month. These data are summarized and returned to all IMPACT partners and show the most recent levels of reported crime for murder, rape, robbery, aggravated assault, burglary, larceny, motor vehicle theft, and violent crime involving a firearm. Up-to-date crime information is also posted on eJusticeNY to inform all law enforcement agencies of how crime is trending in their county and region.

Percent of Crime Reports Submitted Within 30 Days - IMPACT Agencies (annual)

- ✓ **During 2007, the 17 primary IMPACT agencies reported their crime data within 30 days as required 100% of the time.**

IMPACT Crime Trends

Data for the primary IMPACT jurisdictions are now available through December 31, 2007.

Reported Crime Primary IMPACT Jurisdictions 2003 - 2007

	2003	2004	2005	2006	2007	06 vs 07 % Change
Total	125,126	121,169	118,656	119,512	112,269	-6%

Note: Includes reported crime data from the following Police Departments only - Albany City PD, Binghamton City PD, Buffalo City PD, Jamestown City PD, Kingston City PD, Nassau County PD, Newburgh City PD, Niagara Falls City PD, Poughkeepsie City PD, Rochester City PD, Schenectady City PD, Spring Valley Village PD, Suffolk County PD, Syracuse City PD, Troy City PD, Utica City PD and Yonkers City PD.

- ✓ **Overall, reported crime in the 17 primary IMPACT jurisdictions in 2007 was down (-6%) as compared to 2006.**
- ✓ **Murder was down (-9%) as compared to 2006, driven by decreases in Buffalo and Suffolk.**

Operation IMPACT in New York State

- √ Violent crime was down (-10%), driven by decreases in robbery (-14%) and aggravated assault (-8%).
- √ Property crime was down (-5%), burglaries were down (-6%) and motor vehicle theft was down (-10%).

The number of violent crimes involving a firearm is monitored closely in the IMPACT sites. These crimes had reached a 10-year high in 2006.

Violent Crime Involving a Firearm Primary IMPACT Jurisdictions 2001 - 2006

	2003	2004	2005	2006	2007	06 vs 07 % Change

Percent Firearm	18%	17%	19%	20%	19%	

Source: UniformCrime\Incident Based Reporting system (02/01/2008)

- √ Violent crime involving firearms was down (-18%) driven by decreases in firearm-related robbery (-22%) and firearm-related aggravated assault (-13 %).
- √ The number of firearm-related murders was down (-4%).
- √ In 2007, firearm-related crime accounted for 24% of the violent crime reported in the primary IMPACT jurisdictions, down from 26% in 2006.

Operation IMPACT in New York State

Since the 2007 IMPACT initiative focused on assisting jurisdictions in the reduction of violent crime involving firearms, several key measures were implemented. These new measures monitor firearm-related activity within the primary jurisdictions that is not captured in monthly crime data reported to DCJS.

- ✓ The number of shooting incidents involving injury were down (-14%) in 2007 as compared to 2006.

Firearm Activity Primary IMPACT Jurisdictions 2006 - 2007

- ✓ The number of shooting victims, (where an injury was sustained), were also down (-17%) in 2007 as compared to 2006.

	2006	2007	06 vs 07 % Change
Shooting Incidents Involving Injury	896	766	-15%
Shooting Victims (Persons Hit)	1,007	836	-17%
Individuals Killed by Gun Violence	144	138	-4%

- ✓ A higher proportion of incidents resulted in fatalities in 2007, as compared to 2006. Of the 836 shooting victims, 138 were killed (16%).

Expanding Information Sharing and Intelligence

Information shared among law enforcement helps to solve and prevent crime. IMPACT agencies are contractually required to use several critical statewide information sharing systems.

SAFETNet

When two agencies unknowingly investigate the same individual, officers can be put in harm's way, especially if the investigation results in one police agency executing a search warrant at a location that has undercover detectives present from another agency. The Safe Automated Fast Event Tracking Network (SAFETNet) is the State's secure de-confliction system that maintains information on targets and locations currently under investigation. Police agencies which register targets immediately learn if the target is the subject of another investigation, promoting interagency coordination and ensuring officer safety.

SAFETNet Target Submissions by IMPACT Police Departments (annual)

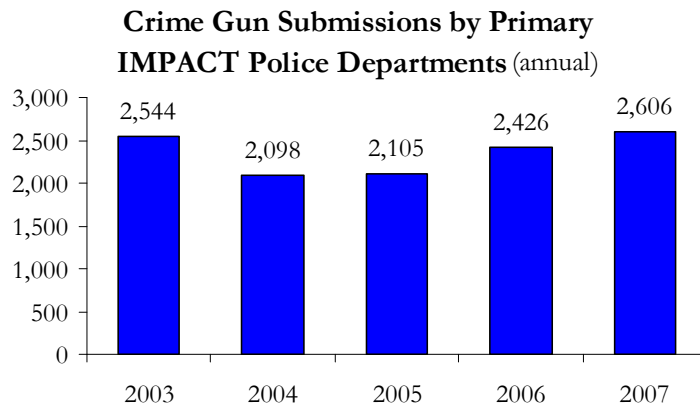

- ✓ The number of investigative targets entered into SAFETNet by IMPACT jurisdictions continued to increase in 2007. A total of 9,483 targets were submitted as compared to 6,798 during 2006, an increase of 40%.

Operation IMPACT in New York State

Crime Gun Submission

Operation IMPACT contracts require participating agencies to share information about firearms. When law enforcement agencies outside of New York City recover a firearm which was used in a crime or suspected to have been used in a crime, the agency sends a detailed message about the crime gun to the New York State Criminal Gun Clearinghouse. This message is sent through the New York State Police Information Network (NYSPIN) and is called a GGUN transaction. The Clearinghouse, which is part of the New York State Police, transmits this information to the Federal Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) for analysis and investigation. New York City provides crime gun information directly to ATF.

✓ Despite the number of recovered guns being down (-11%), primary IMPACT departments transmitted 2,606 records of recovered crime guns in 2007, an increase of 7% as compared to 2006.

✓ The primary IMPACT police departments accounted for 63% of the total crime gun transactions submitted to the Clearinghouse during 2007.

In addition to sharing information on crime guns, IMPACT jurisdictions are required to submit the actual crime guns and any ballistic evidence found, such as bullets or shell casings, to their local forensics laboratory for analysis. Information on the recovered firearms and any ballistic evidence is then entered into information sharing databases. This forensic analysis can link recovered firearms to ballistic information from other crime scenes. Law enforcement agencies are also required to submit a record through the NYSPIN network of each gun that is reported lost or stolen. When this is done, whenever a recovered gun is entered through GGUN, a notice is generated if it matches a gun reported as lost or stolen. These links help law enforcement to solve crimes and investigate gun activity.

✓ The number of crime guns recovered during 2007 was down (-11%) compared to 2006, but the number of guns submitted to the lab during 2007 was up (+6%).

Crime Gun Activity Primary IMPACT Jurisdictions 2006 - 2007

	2006	2007	06 vs 07 % Change
Crime Guns Recovered	5,274	4,719	-11%
Guns Submitted to Lab for Testing	2,414	2,566	6%

SECTION II

Index Crime Report 2006 vs. 2007

Section II includes the December monthly report which also includes full year 2007 data. This report shows the monthly and year-to-date Index crime trends for each of the 17 Primary jurisdictions. These reports are prepared each month and distributed electronically to IMPACT partners, including the IMPACT Police Chiefs, IMPACT County District Attorneys, IMPACT County Probation Directors, and other stakeholders.

SECTION III

Violent Crimes Involving a Firearm Report 2006 vs. 2007

Section III includes the December monthly report which also includes full year 2007 data. This report shows the monthly and year-to-date violent crime involving a firearm trends for each of the 17 Primary jurisdictions. These reports are prepared each month and distributed electronically to IMPACT partners, including the IMPACT Police Chiefs, IMPACT County District Attorneys, IMPACT County Probation Directors, and other stakeholders.

IMPACT Jurisdictions

Violent Crime by Firearm

Preliminary Data: January-December

Prepared by
Division of Criminal Justice Services

Data as of January 31, 2008

	Current Month - December			Annual		
	2007	2006	% Change	2007	2006	% Change

Greater accuracy was achieved following corrections to procedures and UCR coding in 2003.

Note: Albany Police Department's procedural and classification errors from 2000 to 2002 resulted in over-counts in all index categories except murder.
